

PVC Trim Board, Sheets, and Accessories

Reversible Wood Grain and Smooth PVC

Superior Paintability and Surface Protection

Weston's PVC boards have film-faced protection to stay clean through installation. With a special formulation for great paint adhesion, our PVC finishes quickly and consistently.

UV Resistant

Built-in UV resistance ensures suitability for both interior and exterior use, with guaranteed long-lasting color.

Accessories

Our boards integrate seamlessly with Weston's outside corner and stealth board profiles.

Reversible Design

Our reversible PVC has wood grain on one face and smooth pattern on the other face, which reduces the need to carry multiple items.

Edge Sealed Boards

With superior edge sealing, our S4S boards exceed industry standards, reducing service calls and increasing repeat business.
